RESERVE SAINT JULIEN

Du Domaine Madone

Sauvignon

- **Producer:** Philippe Cases
- **Appellation:** IGP Pays d'Oc
- **Origin:** Occitania

Varietal range: This wine is a single varietal Sauvignon

Soil types: The vineyards are located between Arzens and Sainte-Eulalie in the Malepère area. The soils are clay-limestone and the vineyard sites are mainly on hillsides set in a rolling landscape. The climate is Mediterranean, Atlantic and Pyrenean, imparting the wines a special kind of freshness.

Vineyard management: The main varieties grown on the estate are Merlot, Cinsault and Sauvignon, along with Marselan and Cabernet Franc. The vines are all trained, mainly using the Guyot system.

Winemaking: The grapes are picked by machine and go straight to press. The juice is then refrigerated so that it is naturally clarified. Fermentation takes place at low temperatures of between 14 and 16°C to develop fresh citrus fruit aromas.

Tasting notes: A fresh wine with a beautiful golden colour tinged with green. Floral with citrus notes. Thirst-quenching.

Drink preferably within the year following bottling.

Drinking temperature: 10 to 12°C

Food pairings: This wine makes the perfect aperitif when served well-chilled but also partners with fish, seafood or white meats. Alternatively, it can be enjoyed on its own whilst reading a good book or chatting with friends.
