LE JARDIN DES VIGNES RARES DE CICERON

Albariño

- **Producer:** Claude Vialade
- **Appellation:** IGP Pays d'Aude
- **Origin:** Occitania

White varietal: This white wine is made from Albariño. Albariño is a grape variety that originates in Galicia, in the Rias Baixas appellation as well as in Northern Portugal, in the region where Vinho Verde is produced. It is a grape variety that displays wonderful freshness, while developing tropical aromas.

Soil types: This vineyard is located in the west of Aude, on the high terraces of the Corbières in Ribaute. It benefits from a Mediterranean climate, where the daytime heat is balanced by night time coolness due to its average elevation. This promotes aroma development of the grapes during ripening, producing a range of concentrated wines, while maintaining acidity-driven balance. The Albariño vines are planted on cool, marl soils.

Vineyard management: The greatest care is taken in managing the vineyard and health of the fruit. The vines are pruned using the 'palmette' or fan system to allow good distribution of the clusters on the vine stock.

Winemaking: Harvesting is done by hand, in crates. The fruit is crushed directly as whole clusters in a pneumatic press with dry ice to protect the juice from oxidation. Subsequent cold stabilisation lasts for 5 days at 5°C then fermentation starts and lasts for around a week at 16°C.

Tasting notes: The colour is green with silver highlights. The nose is powerful, with notes of mango, lychee and peppermint. The palate is lively with good aromatic intensity. Drinking temperature: 8-10°C.

Food pairings: Perfect as an aperitif and with grilled fish.
