**Intense par Claude Vialade**  
**A.O.P CORBIÈRES**  
**RED**

**Producer**

Vinified by Domaines Auriol, the terroir of Alaric.

**History / Origin**

“Intense” shows another an original approach to the winemaking of Crus of the Languedoc. We identified, within each region of this great amphitheater facing the Mediterranean that is the Languedoc. From our point of view, this is here wa can find the best Mediterranean expressions.

**Geography**

Located on the slopes of the land of Alaric, the plots selected for this wine are located in the heart of the Corbières. The soil is clay and limestone. The vegetation is typical Mediterranean climate: rosemary, thyme .... The altitude of the vineyard, between 150 and 250 meters, high tempers summer heat.

**Vineyard and conduct**

The vineyard is planted with vines of Grenache Mourvedre and Carignan, while hills and facing south. The vines are conducted entirely in goblet and goblet spread.

**Red varieties**

This red wine is a blend of 60% Carignan and 30% Grenache and 10% Mourvèdre

**Vinification and aging**

Carignan is manually harvested and vinified by carbonic maceration. Grenache and Mourvedre are harvested mechanically .. The grapes are destemmed and vinified by long maceration of 25 to 30 days with regular immersion of pomace. The assemblies are at the exit of malos on tasting different wines varietals. This cuvée is then in vats for 10 months until the optimal expression of the wine.

**Tasting and gastronomy**

The typical assemblage from Corbières is characterized by a beautiful deep color, almost black, with blue highlights. The nose is powerful with notes of spice, garrigue and dark fruit. The mouth is characterized by fleshy notes of black olive rosemary, cherry, and dried fruits.

With a good capacity for raising 2 to 5 years, this wine will be perfectly suitable for drinking throughout the meal, simmered or grilled meats, poultry and game on and of course cheese.

Serving temperature: 16 -18 ° C
